Guest

Very good realization of the online lecture. And also the Online/presence mixture from the beginning is something, which could also be done after the corona pandemy as it gives more flexibility to the students.

Guest

Online Format of the lecture due to Corona makes it way harder to stay concentrated.

Guest

In the excercise Owe is a bit to fast in scrolling back and forth sometimes. That makes it a bit hard to copy his writing unless you are a Usain Bolt of writing.

Guest

Always a pleasure. A significant effort is made to transition the contents to distance learning. This is very much appreciated. The only thing that would improve the lecture would be a (legally accessible) recording/properly written out script since many interesting facts are not always noted on the slides.
